

For three years now I have been a dedicated listener to K-LOVE radio. Since beginning to listen, I have been encouraged by the positive message in the music, air talents (D.J.s), and programming to become more active in my local community. K-LOVE has helped me to become an active participant in my community to effect positive change here in Cheyenne, Wyoming. The fellowship between K-LOVE listeners in our local community is inspiring, and if we were to lose our K-LOVE station I believe it would have a negative impact on our community. The radio is an important constant that is almost universal in many of our lives. Many of us listen to the radio to and from work and school, and also in the work place while working. This ability to fill our minds and hears with the positive message of Jesus Christ through K-LOVE is like recieving a boost during our daily routines. It is this continual recharging that helps us to go out into our community and feel empowered to effect a positive impact in our local community. K-LOVE gives us that extra boost when we need it, and thus helps our communities go from good to extraordinary. Staying the course, aiming for extraordinary, can only benefit us as a culture and country.

With respect and thanks for considering my request,

Leon Goepfert
